-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-12, drawn to a screw.

Group 2, claim(s) 13-15, drawn to a screwdriver.

2. The inventions listed as Groups 1 and 2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The inventions are related as subcombinations useable together but do not share any of the same features and thus, could not relate to a single general inventive concept.

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- Group 1 contains the following two groups of species:

- A. Shape of second projections

1. Generally isosceles triangle cross-section seen in a plane normal to the axis of the screw head.

2. Generally right-angled (triangle?) cross-section seen in a plane parallel to the axis of the screw.

B. Center of head

1. Circular depression.
2. Circular Boss.

- Group 2 contains the following species

1. Pin adapted to fit into depression.
2. Depression adapted to fit over boss.

4. If the applicant elects Group 1, applicant must also elect one species (1 or 2) **from each of group A and B** and if applicant elects Group 2, applicant must also elect one species (1 or 2) **from Group 2 only**.

5. Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

6. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Art Unit: 3723

7. The claims are deemed to correspond to the species listed above in the following manner:

From Group 1, species A1 is represented by claim 6, species A2 is represented by claims 7-9, species B1 is represented by claim 11, species B2 is represented by claim 12 and from Group 2 species 1 is represented by claim 14 and species 2 is represented by claim 15.

The following claim(s) are generic: Within group 1 claims 1-5 and 10 are generic to species A1, A2, B1 and B2, within group 2 claim 13 is generic to species 1 and 2 and no claims are generic to both groups 1 and 2.

8. A telephone call was made to Eric S. Hyman on 10/19/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

9. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bryan R. Muller whose telephone number is (571) 272-4489. The examiner can normally be reached on Monday thru Thursday and second Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph J. Hail III can be reached on (571) 272-4485. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
